MAMABELLA

— EVERYDAY BEAUTIFUL —

VICTORIA WOOLLASTON-WEBBER, FOUNDER

[mamabella](#) is a health and beauty website aimed at everyday people — those of us with dark circles, fine lines, blemishes, oily skin, thinning hair, bingo wings, wobbly bits, and more.

Makeup should empower people, not intimidate. Taking care of yourself is not about ego, it's about confidence.

When our founder Victoria struggled to find a sense of identity after experiencing postnatal depression, she realised she wasn't alone. Determined to empower herself, and others, Victoria wanted to help anyone who was feeling this way, and mamabella was born.

Our ethos is to create an approachable, friendly, and accessible beauty site aimed at anyone who is short on time, short on money, and who doesn't feel like the beauty industry "sees them".

M**B** MAN

LOOKING GOOD

www.mbman.uk

**VICTORIA WOOLLASTON-WEBBER,
FOUNDER**

MBman is an online health, grooming, and wellbeing magazine for men.

Just like our sister site, mamabella, we take a science-led, inclusive approach to product reviews and in-depth features about skin, hair, mental health, and more.

We cut through marketing hype and noise to help people who identify as male become more informed about the grooming industry and take control of their looks and lives.

While building mamabella's audience, our founder Victoria found that few sites are dedicated solely to male grooming. Many brands cover the topic, but few devote their entire online or offline space to it.

Our ethos is to create an approachable, friendly, and accessible site aimed at men who are short on time, short on money, or who are taking their first steps into the world of grooming, skincare, haircare and men's makeup.

DEMOGRAPHICS

- MBman is aimed at men of all ages, skin types, budgets and locations.
- The site officially launched in April 2021 and we will update this panel as reader numbers and more specific demographic data becomes known.

ADVERTISE

mbman.uk offers competitive advertising and sponsored content packages
